

Hello there,

You have been invited to join an Edmodo page for mathematics teachers.

Edmodo is something that many teachers all over the world are using with their students. It is cost-free and does not require any software. The first link below is a good introduction to Edmodo for the uninitiated. The video shows how a **teacher** can use Edmodo with his or her students. The last 5 minutes makes reference to the Khan Academy, which is a useful resource for mathematics teachers and their students. It shows many examples of how to explain mathematical concepts. This will enable you to see how Edmodo looks and works for teachers and students.

https://edmodo.adobeconnect.com/_a1002113773/p90dm6qnyrf/?launcher=false&fcsContent=true&pbMode=normal

These are also useful:

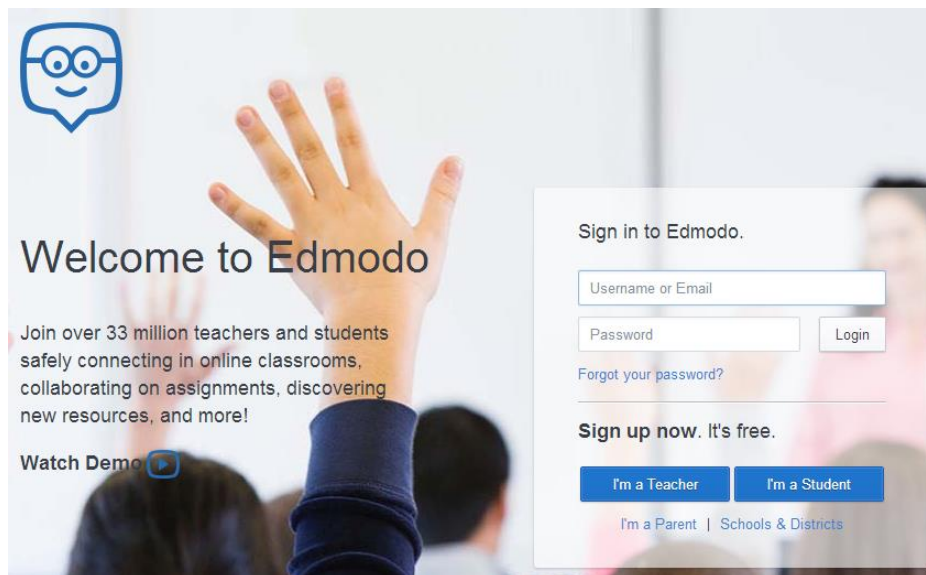

<http://www.youtube.com/watch?v=fPTwW8Vn8nY>

<http://www.slideshare.net/bvanderkley/edmodo-a-student-quickstart-guide-5575559>

How to get started:

You will need to go to www.edmodo.com

It should look like this:

Click on the “I’m a Teacher” box then enter the details requested.

Continued over.....

The Edmodo pages I have created are described here:

<http://www.pd4maths.com.au/stuarts-survey-activity--links.html>

You can click on the name of the pages and use the group code to join those pages.

Please email me if you have any problems
